At Syracuse uous ovation. The nimost enthusiasm provailed, and everywhere Gov. Cleveland was received with cheers. At Syracuse, Rochester and other cities thousands had assembled to greet the great reform Governor and do honor to the next President of the United States. The train arrived in East Buffalo at 8:15 o'clock, five minutes ahead of time. The first loud-voiced welcome was continuous and combined shricks of locomotives and whistles and created a din heard for miles around. The train steamed slowly into the depot, which was reached at 8:35 o'clock p.m. The drizsling rain which set in early in the morning and continued with but brief intermissions throughout the whole day was still falling, but it seemed to have no terrors for the multitude, who thronged the streets leading to the depot, and the depot itself, until they were absolutely impassable. The Governor's appearance was the signal for another outburst of applanse. The enthusiasm was unbounded, the like of which has never been seen in this city. The Governor and his party walked to the Exchange street entrance to the depot, where a handsomely decorated coach, to which were attached eight white horses, driven by a liveried coachman, was in waiting. The Governor, accompanied by Mayor Jonathan Scull, the Hon. Dave N. Lockwood, who nominated Mr. Cleveland at the Chicago Convention, and Winfield Robbins, of Buffalo, slipped into the vehicle, which at once joined the grand procession on Michigan street. His progress was one continuous ovation, The principal streets were jammed, sidewalk and street, by a cosmopolitan crowd. Men and women stood, many of them without protection from the falling rain, waiting patiently for the procession to pass.

The streets along the line of march were brilliantly illuminated, and the display was the finest ever given in Buffalo. Fully 15,000 men were in line, not withstanding the rain, and the procession was over two were given.

After the procession had passed the Governor was tendered a formal reception, many ladies and representative men of the city tendering their congratulations.

At the Genesee House his carriage halted for a moment and then proceeded in the line of march. It was 11:30 o'clock when the Governor's carriage arrived again opposite the Genesee House and still the columns passed without any apparent indication that the end was near. The Governor and his party alighted and entered the hotel, and it was nearly three-quarters of an

Going thither he found two of his ton horses loase and he went in the stail to separate them. His favorite horse kicked him in the breast, inflicting wounds from which he soon died. Leaving no will, the estate was divided between his wife and only daughter, Carrie, the house going to the wile. Unity ruled until the mother tried to get the daughter into an insane asylum. The household was then again broken up and the house was left to chosts. One of te many freaks of the spurits is the besmirching of the door-knob of the best chamber with a substance like coagulated blood, which spoears every morning, after being wiped off. Several families have attempted to reside there since the Weltons left, but soon gave it up, eithough not publicly assegning any reason therefor. Mrs. Welton had returned to the mansion before going to Europe, and the furnishins there now belong to her, but the house is closed and wears a forbidding look. All sorts of stories are in circulation to-day about the old mansion, one of which is that the daughter had been seen in the yard on horseback at midnight. Although the property was put in the market at a low figure, it is impossible to sell it, as it is firmly believed that a curse rests upon it.
